

ROOSEVELT AND FRIENDS ON WAY TO COURT; BARNES IN A LISTENING ATTITUDE.

ROOSEVELT ARRIVING AT COURT HOUSE. ON LEFT, JOHN McGRATH, PRIVATE SECRETARY, and RIGHT, WILLIAM H. VAN BENSCHOTEN, OF COUNSEL.

BARNES LISTENING TO ROOSEVELT TESTIFYING

In the accompanying photographs taken at Syracuse, N. Y., leading persons in the celebrated libel suit brought by Mr. Barnes against former President Theodore Roosevelt are shown. Mr. Roosevelt was caught by the camera man as he was about to enter the courtroom. On his left is John McGrath, his private secretary, and the last witness in the trial. On the right is William H. Van Benschoten, who opened the defense for Mr. Roosevelt. There also is shown a characteristic pose of Mr. Barnes. It was taken while Mr. Barnes was listening to the testimony of Mr. Roosevelt.

According to a statement issued at the Swiss Legation at Washington, business conditions are practically normal again, and there is an abundant supply of foodstuffs in the country.

INTERNATIONAL EGG LAYING CONTEST

The twenty-fourth week of the contest at Storrs showed an unusually long list of pens from two countries and four different states competing for the coveted honors of the week. Bradford Farm's pen of White Rocks from Groton, Conn., were an easy first with 57 eggs. D. E. Warner's pen of Reds from Bridgeton, R. I., and three pens of White Leghorns owned by Tom Barvon, Catforth, England; Albert S. Sonderberger, South Coventry, Conn.; and James V. Thomas, Ballston Lake, N. Y., all tied for second place with 51 eggs each. Another pen of Bradford Farm's White Rocks and three pens of Leghorns from F. M. Peaseley, Cheshire, Conn.; S. J. Rogers, Unadilla, N. Y.; and George M. McMillan, Springfield, Mo., all tied for third place with 50 eggs each.

In addition to the unusual incident of having eight pens tied for second and third places it is also interesting to note that the White Rock pen of 57 eggs is the best weekly pen production made in the contest so far by any American pen and has been exceeded by only two eggs by a foreign entry. The total yield for all pens amounted to 3,794 eggs.

All poultrymen are undoubtedly getting satisfactory yields at this season of the year. This does not mean, however, that plans ought not to be made now to get summer eggs, that is to say those that are laid in July and August when the price is higher and it is more economical to feed hens, and the days are hot and the poultry have to be come bare. This suggestion does not, of course, apply particularly to those poultrymen who have ideal conditions for their hens, namely, free ranges but unfortunately poultry yards are in most cases a necessary evil. They usually mean furthermore that the hens have a too restricted area over which to roam, hence it becomes necessary to supply even in summer, additional green food. Lettuce, Swiss chard and rape will meet the requirements. The latter two are perhaps better because they can be cut off from time to time and will keep on growing and the best part of it is that only a little land is required for this purpose. At the laying contest only about a fifth of an acre is being planted and the management expects to have more nice succulent green food than it will be possible for a thousand hens to consume.

The ten leading pens to date are as follows:

Ed Cam, Hoghton, near Preston, England, White Wyandottes,	938
Hill view Poultry Farm, St. Albans, Vt., Rhode Island Reds,	896
Tom Barvon, Catforth, near Preston, England, White Wyandottes,	868
A. P. Robinson, Calverton, N. Y., White Leghorns,	810
Merritt M. Clark, Brookfield Center, Conn., Barred Rocks,	798
Pinecrest Orchards, Groton, Mass., Rhode Island Reds,	775
Springdale Poultry Farm, Durham, Conn., Rhode Island Reds,	766
Storrs Station (Experimental pen), Rhode Island Reds,	761
F. M. Peaseley, Cheshire, Conn., White Leghorns,	746
Colonial Farm, Temple, N. H., Rhode Island Reds,	744

BOYS' BRIGADE GIVES PASTORAL COMEDY

"St. Slocum's Country Store" was given by the U. S. United Boys' Brigade of America, at their armory, North avenue and Remer street, last evening. There was a large attendance and applause was frequent. The scenic and electrical effects were fine. The hypnotic stunt of a medical student brought forth big applause. Also the explanations of the barkers of the sight-seeing auto.

POINTS OF INTEREST

Radford B. Smith has made a radical departure for this week's Saturday sale. Many goods are to be sold at a special time and at a very deep cut in price. Also during the evening double carfare will be given to all purchasers buying the usual amount and taking their packages.—Adv.

Saturday will be bargain day. From day to day we gather together those articles that have not sold as rapidly as they should while new and stylish and on Saturday we mark the prices so small that in one day we sell as many as we did in weeks before. This is our loss and your gain. Excellent values in hats, trimmings, shirt waists, petticoats, cloth coats and rain coats at E. H. Dillon & Co.'s, 1195 Main street.—Adv.

The Canadian Pacific Railway was appointed purchasing agent for the British Government to cover all war orders placed in Canada.

THE DREAD OF CATARACT

The public has a horror of the word "cataract." It is a synonym of irremediable blindness. This is bad for two reasons. In the first place, the patient and his friends are inclined to regard every eye trouble as cataract. Every spot on the eye, every decrease in vision causes the fear, "I'm going blind from cataract." Frequently the patients go to the oculist so wrought up that even his favorable opinion fails to relieve them. In this state, they fall an easy prey to quacks, and charlatans, who assure them that

their glasses and lotions will affect a cure. Sometimes there is an actual improvement in the ocular state, as a result of which the remedy to cure cataract is heralded far and wide. On the other hand, they may serve to keep the patient from securing proper treatment until the condition which at first was comparatively harmless, may have progressed beyond the possibility of cure. In the second place, even if the patient has a cataract, the outlook is by no means hopeless. It must be explained to him that the nature of the disease is such that there will be a progressive loss of

sight until a certain stage is reached, after which it will be possible by a delicate operation to restore the sight. In only a very small percentage of cases does the eye become blind. In the great majority of cases, a high degree of useful sight is obtained, and in some a condition approaching normal vision results. In fact, cataract is one of the most favorable eye diseases which cause loss of sight, and a patient whose failing sight cannot be remedied by glasses, should hail this diagnosis with relief instead of horror.
